FireRay® LED Perimeter Lights

FireRay LED perimeter lights offer various lighting options and sizes with a unique new look that accommodates multiple mounting applications on fire apparatuses, ambulances, work trucks, and police vehicles. The FireRay series includes warning lights, brake/tail/turn, arrow, backup, and scene lights with an optional Black or Chrome bezel. Warning lights are available in standard 4x3, 6x4, 7x3, 9x7, and scene lights are available in 6x4, 7x3, and 9x7. Models are available in single-, and dual-color with split-color models available in 4x3 size. Models come with the option of either a clear or colored lens. LED color options include Amber, Blue, Red, or White and lens color options include Amber, Blue, Red, or Clear.

Certified IP67

FireRay® LED perimeter lights are certified to meet IP67. The Ingress Protection Marking classifies and rates the degree of protection provided against dust and water intrusion. The first digit in IP ratings indicates the level of protection against solids, and the second digit indicates the level of protection against liquids. IP67 certified means that the FireRay is dust-tight, allowing for no dust ingress and can be submerged in up to one meter of water for 30 minutes.

FireRay LED perimeter lights are IP67 certified to protect against dust and water

FireRay Brake/Tail/Turn Application

Brake/tail/turn, backup, and arrow models are available in 6x4 models. Horizontal 4-up and 3-up castings are available and require no special die-cut to the body of the vehicle.

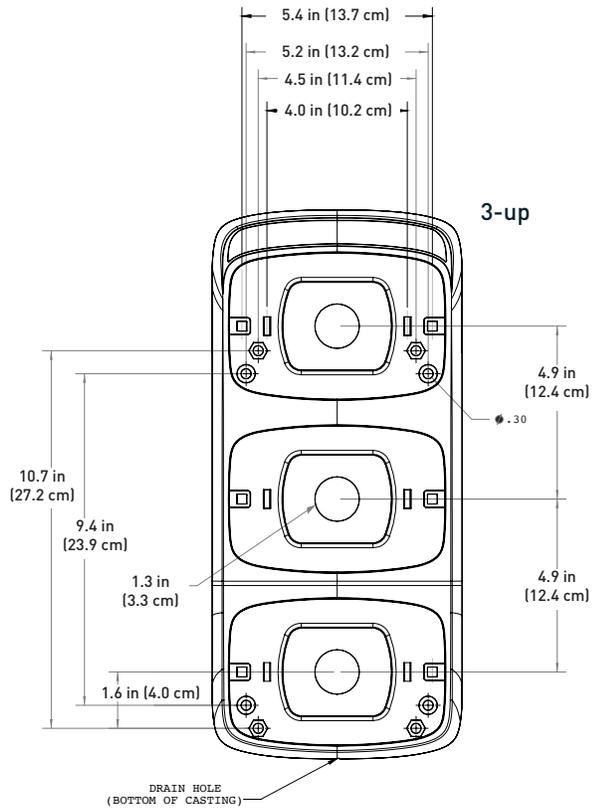

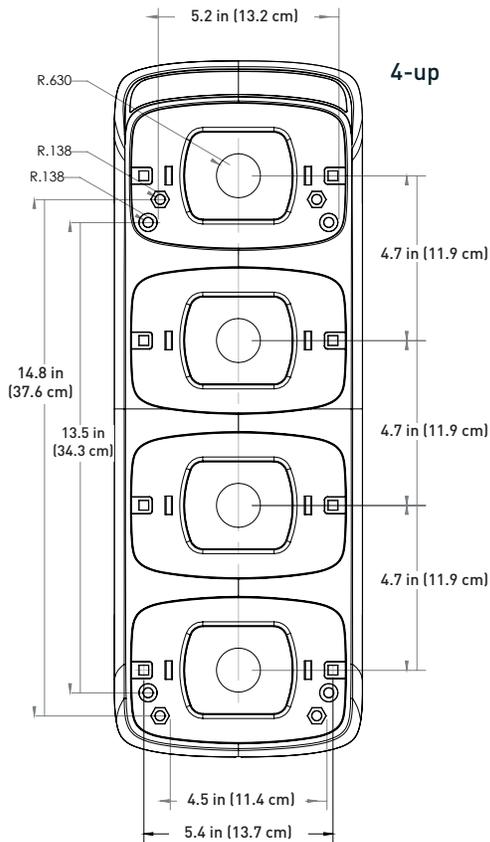

Optional Chrome or Black bezel
