- Does not interfere with SRS airbag system
- E-coated / Black powder coat for bumpers, top channels, PIT bars and wing wraps
- Mount kit and hardware included
- Three-year warranty

Extremely Strong Design

The PBX Series is designed with maximum safety in mind, and it offers customization for your specific needs while providing the best strength, durability, and protection. All components of the series are manufactured with heavy-duty HRPO steel and engineered to provide extra protection to the grille, front end, and police officer.

Easy Installation and Customization

No drilling is required, making installation quick and easy. There are pre-drilled uprights and center cross plate for adding an optional PIT bar and mounting extra lights or speakers on the push bumper. Three top channel options further allow the customer to choose how to customize the vehicle.

Push Bumper

The push bumper is made of heavy-duty 4-gauge steel uprights, with (2) 3/4-inch wide rubber strips and a lower tube, to provide extra protection and strength. Uprights are pre-drilled for the addition of PIT Bars, and the extra wide 4-5/8-inch pre-drilled center cross-plate offers options for the top-mounting of LED lights or speakers.

All exposed fasteners are black-plated stainless for protection against rust. The PBX Series push bumper designs are vehicle-specific for a clean, finished look.

Top Channel Options

PBX Series offers three top-channel options:

- Plain top channel
- 2-light top channel, for use with two MicroPulse® Ultra 6 lights sold separately
- 4-light top channel, for use with four MicroPulse Ultra 6 lights sold separately

PIT Bar Options

PIT Bars are made of heavy-duty 7-gauge steel horizontal bars and feature (2) 2-3/4-inch wide rubber strips with plastic end caps for a clean finished look. PBX Series PIT Bars are designed to bolt directly to a PBX Series push bumper for the best PIT maneuver possible.

Wing Wrap Option

The wing wrap option offers additional protection to the front end and headlight protection. The wing wraps are made from 14-gauge steel that is treated with powder coating/e-coating for protection against rust. The wing wraps get bolted directly to the push bumper and the PIT bar option. This allows for a clean and easier installation.

Wire Cover Option

Wire Covers for Dodge Charger, Chevrolet Tahoe and Ford Police Interceptor Utility Push Bumpers are now available.

HOW TO ORDER

PUSH BUMPERS

PBX03	Dodge Charger Pursuit, 2015-2022
PBX04	Chevrolet Tahoe, 2015-2020
