

Federal Signal provides bracket kits suitable for mounting ES100 (DynaMax) speakers on 2011 Dodge Charger

Several of Federal Signal's ESB bracket kits are suitable for use when installing ES100 (DynaMax) speakers on the new 2011 Dodge Charger.

ES100 installation **WITHOUT** Rumbler

When installing the ES100 speaker without a Federal Signal Rumbler intersection clearing system, the following bracket kits are suitable for the 2011 Dodge Charger – ESB-CRG07, ESB-U, and ESB-TAR11.

For the easiest installation, Federal Signal recommends the ESB-TAR11 be utilized.

ES100 installation **WITH** Rumbler

When installing the ES100 speaker and a Rumbler intersection clearing system, on a 2011 Dodge Charger, the bracket kits ESB-TAR11 and ESB-U are suitable.

The bracket kit ESB-CRG07 will NOT work when also installing a Rumbler system.

For the easiest ES100 installation with a Rumbler system, Federal Signal recommends the use of speaker bracket kit ESB-TAR11 and Rumbler bracket kit RB-CRG11.
