

Introducing the new HighLighter™ LED “HL Series”

Federal Signal is pleased to announce the new HighLighter LED “HL Series”. The new series of HighLighter LEDs has improved optical performance, a variety of new product features and will be available for a lower price. The HighLighter LED series will be available in three different versions to fit a variety of applications – HighLighter LED, HighLighter LED Plus, and the HighLighter LED Pro.

The HighLighter LED Series will feature Federal Signal’s exclusive Solaris® reflector technology and ROC (Reliable Onboard Circuitry™) technology. Each of the HighLighter LEDs will come equipped with 23 flash patterns (21 user-selectable) including new random and rotating patterns. Additionally, below is a breakdown of the features that will be included in each model:

HighLighter LED

HighLighter LED Plus

HighLighter LED Pro

	HighLighter LED	HighLighter LED Plus	HighLighter LED Pro
MagnetSelect™	X	X	X
Magnet Included		X	X
Low Power/Dim		X	X
Sync Option			X
High-side two-channel Flasher Option			X
SAE Class 1 Approved	X	X	X
CAC Title 13 Approved		X	X
LED Count	26	36	Up to 42
Split Option			X

The housing and the mounting footprint of the HighLighter LED are remaining the same and all HighLighter brackets are compatible with the new series. The new HighLighter LED series versions are available for order in permanent mount, magnet mount or suction-cup magnet mount models.
