

POLICE CAR CONFIGURATOR

NEW POLICE CAR CONFIGURATOR NOW AVAILABLE ON FEDSIG.COM

Federal Signal is pleased to announce our new Police Car Configurator. This platform allows you to configure a police car warning package from a selection of the most popular pursuit vehicles.

- Select from popular Federal Signal light bars, sirens, push bumpers, perimeter lights, interior lights, and other accessories. Vehicle-specific brackets are bundled with their respective products, ensuring proper item selection.
- Federal Signal products are organized into specific vehicle areas, allowing you to easily work one localized area at a time. When all selections are complete, a PDF with a detailed product list is generated allowing you to print or save it to your computer along with an Order Form.

How to get started:

1. Click here to visit <https://configurator.fedsig.com/>. (Don't forget to bookmark this page in your browser!)

2. Select your vehicle.
3. Select the vehicle's generation.
4. Begin configuring your pursuit vehicle, by clicking on different vehicle areas at the top of the screen to select your Federal Signal products.

5. Check a box for each category to select a localized area to work on.
6. Once you have completed the Product Selections for each area, click the Create Report button.
7. Enter your contact and department information in the Quote Form pop-up window. When finished, click Submit.
