

FB2 LED QUAD COLOR

THREE NEW FB2LED QUAD COLOR VIDEOS RELEASED

Federal Signal's FB2LED Fireball® LED Warning Light and FB2LEDX Hazardous Location LED Warning Light are now available in quad-color models. Models FB2LED-QC and FB2LEDX-QC offer four color options, and four light effects (60 FPM, 120 FPM, simulated strobe, and steady) for (16) different color and flash combinations in one high-performance signal. Programming is made easy by wire selection to achieve the desired color and flash pattern.

Now available on our website and Youtube are the following product videos:

- FB2LED Quad Feature and Benefit Video
- FB2LED Quad Flash Pattern Video
- FB2LED Quad Instructional Video

Check them out today by clicking the thumbnails below! For more information on the FB2LED Quad, visit our [website](https://www.fedsig.com) or our Youtube channel.
