

NEW INGRESS PROTECTION RATING

Federal Signal is excited to announce that the Vitalite®, Global Series strobe and LED and the Fireball families are now IP67 compliant. The new rating enhances the durability and longevity of our models by safeguarding them against extreme dust and water environments. The IP67 rating helps prevent corrosion, short circuits, and other internal damage that can compromise the performance and lifespan of the signaling devices. A devices with an IP67 rating is more likely to withstand harsh conditions such as indoor/outdoor wet locations, temporary water immersion, or marine environments.

HOW TO ORDER
