

GLOBAL SERIES

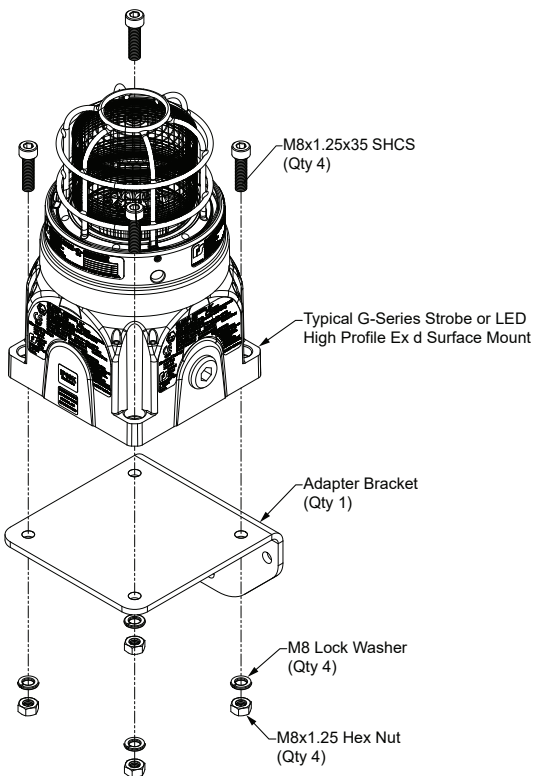

G-KIT-WBKT WALL MOUNT BRACKET

NOW AVAILABLE TO ORDER

Federal Signal is excited to announce that the Global Series wall mount bracket, G-KIT-WBKT, is now available to order. This innovative bracket is designed to facilitate the mounting of Global Series LED, strobe, loudspeaker, amplified speaker, and sounder units with Ex d mount in an up, down, or side position. By installing the wall mount bracket in the down position above operators or in ceilings, the Global Series units can effectively direct light or sound output downward. This versatile bracket offers a convenient solution for enhancing the functionality and flexibility of Global Series units in various applications.

The G-KIT-WBKT wall mount bracket also functions as a retrofit kit, enabling the seamless replacement of a WV450X Flameproof Strobe with a G-Series Strobe or LED with an Ex d mount using the existing mounting holes.
