

FEDERAL SIGNAL/ACARI ENGINEERING PARTNERSHIP

Federal Signal announces an exciting partnership with Acari Engineering to offer drill free, truck rooftop mounting solutions. Under this partnership, Federal Signal will offer the Acari TT (Ford® specific) and Talon (GM-specific) mounting brackets to our valued customers.

TT - 20-inch Aluminum Mount (Ford)

A completely redesigned drill-free mount, the Acari TT offers a new installation process that is faster and easier than ever. A new, sleek design includes a vertical surface to allow for work lights. The new TT gives you even more options when up-fitting your vehicle. The Acari TT drill-free mounting bracket is compatible with the following Ford models: F-150 (2015+), F-250 through F-550 (2017+), and Ranger (2019+).

Talon - 20-inch Aluminum Mount (GM)

The Acari Talon is an industry-first solution to GM® and Chevrolet® vehicles with a focus on simplicity of design and vehicle installation. Using a sleek, new mono-body shape, the Talon makes mounting your rooftop accessories simple and economical. The Acari Talon drill-free mounting bracket is compatible with the following GM and Chevrolet models: 1500-4500 with Spoiler Applique (2019-2020).
