

KIT-SV

NEW FIREBALL® AND VITALITE® SHOCK AND VIBRATION KIT

Model KIT-SV has been engineered for seamless integration with Federal Signal’s FB2 Fireball® and 121 Vitalite® lights, ensuring optimal performance in high shock and vibration environments. It is the ideal solution for maintaining the stability and functionality of these lights in demanding conditions, providing a reliable mounting solution that safeguards against potential damage.

KIT-SV is compatible with the following product lines

- FB2LED
- FB2LEDX
- FB24STHI
- FB2PST
- FB2PST-I
- 121ALED
- 121SLED

Additionally, FB2LED-120-240 combined with KIT-SV has been tested to military standards, meeting both MIL-DTL-901E standards for Grade A, Class II, Type A (Shock) and MIL-STD-167-1A (Vibration). Both standards are essential for ensuring that military equipment can withstand challenging environments, resulting in enhanced operational readiness and safety. [Note, this is the only model that is approved for this testing]
