

NEW TYPE 4X & IP66 FT SERIES TELEPHONES

AVAILABLE TO ORDER

Federal Signal is excited to announce the addition of the new watertight FT Series Telephones to the industrial telephony product line. With Type 4X and IP66 enclosures, these watertight telephones are designed for safe and reliable communication in the most challenging environments. Each phone features a rugged thermoplastic resin enclosure, providing protection against dust, rain, corrosion, and high-pressure water.

Engineered to withstand high ambient noise levels across various applications, these telephones ensure clear connectivity, even in demanding conditions.

By enhancing safety and efficiency, the FT Series ensures faster response times and reduces the risk of injury, offering robust communication solutions that are crucial for protecting lives and maintaining operational continuity in industries where every second counts.

Additions to the FT Series include the following:

- **FT300A-A** - Watertight Analog Telephone with metal keypad and armored handset cord
- **FT350A-A** - Watertight Analog Ringdown Telephone with armored handset cord
- **FT300A-V** - Watertight VoIP Telephone with metal keypad and armored handset cord
- **FT350A-V** - Watertight VoIP Ringdown Telephone with armored handset cord
- **LCK-WTE** - Door Lock Accessory
