

121SLED AND 121ALED

NOW AVAILABLE IN MAGENTA

Federal Signal is excited to announce the 121SLED and 121ALED Vitalite LED Rotating Lights are now available in Magenta.

The 121SLED and 121ALED is a compact rotating warning light. The 121ALED is available in 24VDC and the 121SLED is available in 120VAC. Both models are available in Six colors and features a parabolic reflector that rotates round a 360-degree LED, providing 60 revolutions per minute in all directions.

The Vitalite models are designed for safe areas and are rated Type 4X, IP66 with a water- and dust-tight seal. Both units are IP69K compliant to withstand high temperature and pressure washdowns. 121SLED and 121ALED are ideal in high-ambient and harsh applications where gaining attention is critical including emergency evacuation, hazardous area markings, overhead cranes, irrigation systems, and conveyor and machine start-ups.

121ALED and 121SLED Vitalite LED Rotating Light Features

- Available in 24VDC(121ALED) and 120VAC(121SLED)
- 25,000 hour LEDs
- Six lens colors: Amber, Blue, Clear, Green, Magenta, and Red
- Integrated 1/2-inch NPT pipe and surface mount
