

# 2001TRBP DISCONTINUED

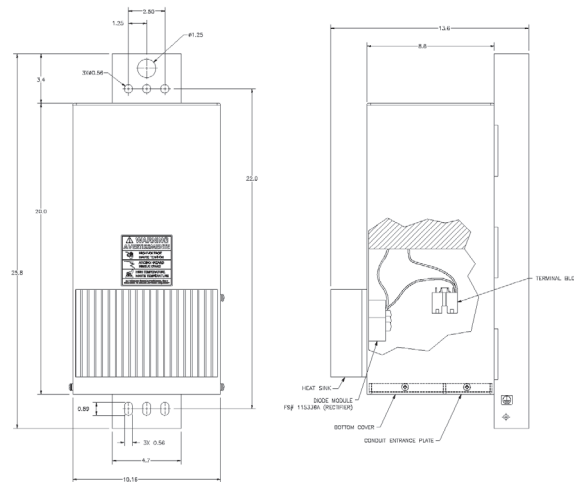

MODEL 2001TRBP IS DISCONTINUED AND REPLACED WITH MODEL 2001TRB

## FEATURES

- High-powered transformer rectifier for powering mechanical sirens from nominal 220 Vac (2001TRB)
- Provides primary system power (46 Vdc) for DC sirens
- Provides 115 Vac for a siren controller, chargers, and heaters
- Includes transfer relay contactors (Typically mounted in DCFCB or DCFACTBD cabinets)
- Enclosed in a weather-resistant rainproof enclosure

Effective immediately, the 2001TRBP is no longer available to order.

The recommended replacement for 2001TRBP is the model 2001TRB, Transformer Rectifier.
