

OBDCABLE16-7

NEW OBD CABLE FOR 2025 FORD POLICE INTERCEPTOR® UTILITY

Federal Signal recommends using OBDCABLE16-7 for a 2025 Ford Police Interceptor® Utility.

The FS Vehicle Integration is a straightforward plug-and-play connection that utilizes the existing vehicle CAN (Controller Area Networks) bus system. By purchasing a vehicle-specific cable, it can seamlessly integrate with the vehicle, allowing for light control based on vehicle events such as door opening, headlight status, braking, speed, and parking. Vehicle OBD integration is programmed through the FS Convergence Software.
