

GLOBAL SERIES®

GLOBAL PERFORMANCE.
TRUSTED WORLDWIDE. NOW IN RED.

FEATURES

- **High-Visibility Finish:**
Red enhances signal recognition in emergency situations
- **Modular Design:**
Flexibility to configure per site or system needs
- **Global Compliance:**
Designed for international applications
- **Trusted Performance:**
Built on a century of Federal Signal reliability

Federal Signal is excited to announce the launch of its Global Series® Signal Platform in Red, designed to enhance visibility and provide high-performance signaling for a variety of industries where clear, attention-grabbing alerts are crucial.

Now available in red across the full product line:

- [G-LED Global Series Hazardous Location LED](#)
- [G-STR Global Series Hazardous Location Strobe](#)
- [G-SND Global Series Hazardous Location Sounder](#)
- [G-SPA Global Series Hazardous Location Amplified Speaker](#)
- [G-SPK Global Series Hazardous Location Loudspeaker](#)
- [G-MSD Global Series Hazardous Location Custom Fixtures](#)

Global Series is trusted worldwide for rugged construction, high-performance signaling, and modular design flexibility. With the addition of a red housing color option, Federal Signal expands the platform to provide broader solutions for safety and emergency communication across multiple industries. The red finish enhances visibility, ensuring signals are quickly recognized in environments where urgent action and clear communication are critical.

Engineered for reliable performance in demanding conditions, Global Series products support applications in manufacturing, oil and gas, chemical processing, and emergency situations. Red's universal association with urgency further strengthens their effectiveness in fire, gas detection, and emergency response, where rapid recognition and decisive action are essential.

TIMING

All orders can be accepted and processed today with shipments starting in November.
