

# FB2 DIRECTIONAL LIGHT KIT

## NOW AVAILABLE

Federal Signal is excited to announce the FB2-KIT-DL directional light kit is now available to order. Model FB2-KIT-DL is compatible with Federal Signal's surface mount FB2 Fireball products, making it an optimal option for applications that require directional lighting. The kit effectively restricts light emission to 180 degrees horizontal dispersion while blocking light output from top of lens, ensuring focused illumination in critical areas.

FB2-KIT-DL is suited for perimeter security, marine applications, and directional signaling, significantly enhancing visibility and safety.

**FB2-KIT-DL** is compatible with the following product lines

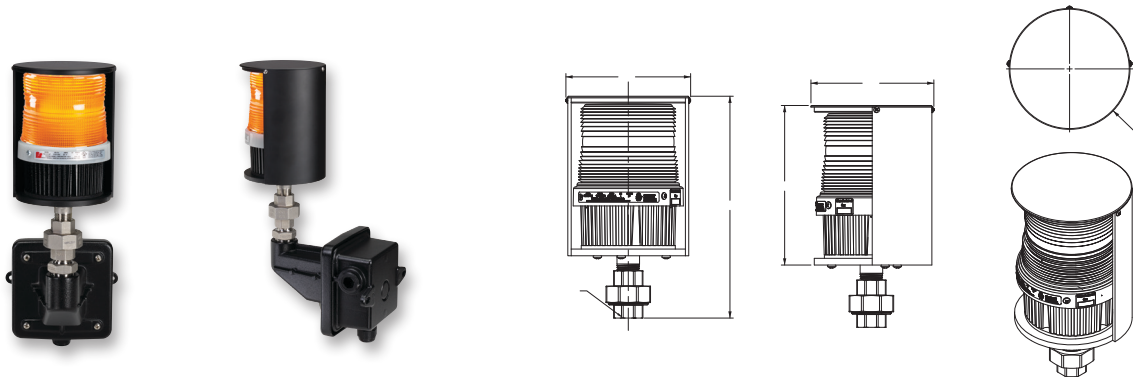

- FB2LED
- FB24ST
- FB2PST
- FB2PST-I
