

ALLEGIANT® MAX DISCRETE

NOW AVAILABLE

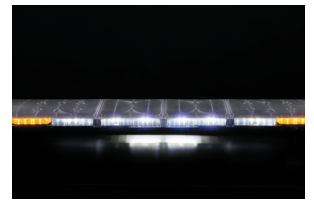

Allegiant® Max Discrete is here, the latest innovation in our Allegiant Max light bar series, delivering a revolutionary approach to vehicle safety and visibility. With upgraded features for enhanced safety and performance, it ensures reliability when it matters most.

Enhancing Visibility and Safety

The Allegiant Max Discrete light bar features a low-profile, linear design that provides superior multi-color warning in vehicular applications. Designed to keep emergency personnel safe on the road, the Allegiant Max Discrete offers tri-color capability, (30) attention-getting flash patterns, front and rear flood, alley lights, work lights, external power S/T/T, and SignalMaster™ directional warning.

Alley Ground Light

Bed Light

The Allegiant Max Discrete also offers the Federal Signal exclusive bed light option, which shines a White work light down from the light bar into the bed of the truck. For even more safety, the Allegiant Max Discrete features an alley ground light option to increase visibility as you enter and exit your vehicle.

With the addition of rollback safety reflectors, the Allegiant Max Discrete enhances rear warning during tow truck operations. These reflectors are strategically designed to reduce collision risks by providing enhanced warning to approaching vehicles.

Roll-back Safety Reflector

FSJoin® Programmability

The programmability feature (available on all models (except the 94-inch version) takes customization to the next level. With Convergence Configuration Software and an FSJOINPR-1 programmer, users can easily program and manage flash patterns, light activation, and other settings to suit specific operational needs.

FSJOINPR-1

Experience the ease of programming and take full control of your safety lighting system with FSJoin® compatibility.

TIMING

Ready to upgrade your light bar? Orders can be accepted today for Allegiant Max Discrete, and shipments will begin in December. Visit our website to learn more about how to order the Allegiant Max Discrete or call your Federal Signal Representative today.
