

EWP AND EZ1 MODELS OBSOLESCENCE

REPLACEMENTS AND ALTERNATIVES WITH E2 ECHO MODELS

The EWP and EZ models are now obsolete. All EWP and EZ1 inquiries are to be quoted using either comparable E2 ECHO models or E1 EX rated models.

The E2 units and E1 units are 100% compatible with existing ECHO systems, but do not have same mounting footprint as EWPs and EZ1s they replace. Please note that users may need to make provisions for mounting footprint differences.

The following ECHO models are now obsolete. Recommended replacements are noted.

DISCONTINUED MODELS

DISCONTINUED MODEL	RECOMMENDED REPLACEMENT
EZ1-JS-FS	E1-JS-EX
EZ1-JS*	E1-JS-EX
EZ1-SM*	E1-SM-EX
EZ1-GM1	E1-GM1-EX

EWP-GM1	E2-GM2
EWP-GM2	E2-GM2
EWP-GM3	E2-GM3

*Parts have limited quantity still available for purchase

TIMING

Due to market conditions the current expected delivery date for these new items can be up to six months.

Note: Federal Signal does not offer a comparable E2 model for EWP-JS. Therefore, quotes should include E1-JS-EX.
