

ADAPTER KIT FOR XEN STROBE APPLICATIONS TO UPGRADE TO G-SERIES

NOW AVAILABLE

The G-KIT-XBKT adapter kit is now available, providing a seamless solution to upgrade legacy installations using 2000 Series XEN1 and XEN4 Flameproof Strobe Lights to current G-Series visual signaling technology. The kit enables direct replacement of XEN strobe lights with G-Series strobe or LED Ex d devices while reusing the existing mounting holes. By eliminating the need for new drilling or structural modifications, it helps minimize installation time, reduce downtime, and support a smooth transition to newer, more efficient signaling devices.

G-KIT-XBKT-R is compatible with the following product:

- G-STR Global Series Hazardous Location Strobe
- G-LED Global Series Hazardous Location LED
