

NEW SOLAR POWER SOLUTIONS FOR OUTDOOR SIRENS

INTRODUCING MODELS PVS260W-24,
PVS260W-48, PVS400W-24 & PVS400W-48

Power your critical alerting systems with confidence—anywhere, anytime. Our latest PVS Series Solar Power Kits deliver a complete, reliable, and efficient energy solution for outdoor sirens and remote equipment.

The new PVS models offer a fully integrated solar power solution designed to meet the demanding needs of remote warning and control systems. These kits deliver dependable performance where traditional power sources are not practical.

Each kit uses **high-efficiency solar panels:**

- 260W models: (2) 130-watt panels
- 400W models: (2) 200-watt panels
- Pre-wired junction boxes for simplified installation

These new models replace: PVS240W-24 and PVS240W-48 as well as PVS315W-24.
