

PERIMETER BREACH WARNING SYSTEM

NEW MOUNTING KIT FOR THE FORD® F-150'S

FEATURES

- Vehicle radar detection system that alerts officers of potential threats starting from a minimum 25-ft radius of vehicle
- Enhances officer safety by providing increased situational awareness
- When activated, the Perimeter Breach Warning System signals the officer audibly and/or visually inside the cabin and can be programmed to activate exterior flashing warning lights, flood lighting, siren, and/or voice messages
- Alerts are customizable through the FS Convergence Network Configuration Software
- Five-year warranty

Federal Signal is pleased to announce the PBWK-F15022. This mounting bracket kit allows for the installation of the PBW-SYSTEM sensors on 2022-2026 Ford® F-150 models.

This product represents continued support for the Perimeter Breach Warning System. See more information about the system on the [product web page](#), or on [Federal Signal's YouTube channel](#).
