

IVP SLR BEACON

NEW MICROPULSE® OPTIONS AND IMPAXX® MODEL DISCONTINUATION

VSLR1-R1-WRBA

VSLR1-R1-M6RBA

To align the IVP SLR Beacon with Federal Signal's latest perimeter warning technologies, we are introducing new models featuring MicroPulse® Ultra and MicroPulse® Wide Angle Pro light heads. At the same time, IVP SLR Beacon models using IMPAXX® light heads will be immediately discontinued.

Models featuring MicroPulse Ultra or MicroPulse Wide Angle Pro provide enhanced tri-color warning capability with independent color control. The Red wire will flash Red, the White wire will flash Blue, and the Brown wire will flash Amber. The MicroPulse Wide Angle Pro models also feature integrated down lighting for added functionality.
