

VISUAL SIGNAL WALL MOUNTING KIT

NOW AVAILABLE

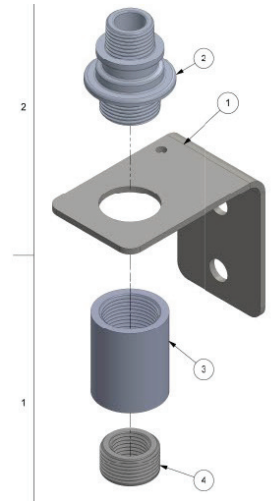

The WMBRKT Wall Mount bracket kit is now available for select FS visual signals. This mounting solution allows the device to be mounted vertically on a wall where direct wall mounting is required. This kit design simplifies installation while supporting durable, long-term operation.

WMBRKT is compatible with the following products:

- LP3PL
- LP3XL
- FB24ST*
- FB24STHI*
- FB24STHI-CN*
- FB2LED*
- FB2LED-QC*
- FB2PST*
- FB2PST-I*

This kit is designed to provide dependable, long-term performance in virtually any environment. Installation is straightforward and requires basic tools.

* This kit will not work on Hazardous Location Fireball models or Fireball models with the wire guard installed. Please reference the instruction manual for further information.
